

Call for Papers

Determinants and Consequences of Labor Market Mobility

(Konstanz, Germany, July 1-2, 2024)

We invite you to submit a paper to the Macro-Labor Workshop “*Determinants and Consequences of Labor Market Mobility*”. The workshop will be held at the University of Konstanz, Germany, on July 1-2, 2024. Key lectures will be given by Ayşegül Şahin (University of Texas at Austin) and Benjamin Schoefer (University of California, Berkeley).

The work presented at this workshop will cover theoretical and empirical contributions to the (macro-) labor economics literature with a focus on worker mobility across firms, occupations and industries. Due to the important role of demographics for labor market mismatch, the workshop will consider the separate mobility patterns of men and women over the lifecycle. The aim of the workshop is to promote the connection of theory and applications addressing policy relevant questions.

To submit a paper or express your interest in the workshop, please send an e-mail to office.findeisen@uni-konstanz.de with your paper in pdf format. The deadline for submissions is April 15, 2024. Decisions about paper acceptance will be communicated in early May. Each paper will be assigned a discussant.

We look forward to receiving your papers.

Carlos Carrillo-Tudela (University of Essex)
Sebastian Findeisen (University of Konstanz)
Leo Kaas (Goethe University Frankfurt)
